Dear Parent/Caregiver,

This year we are implementing a new program called MyEDiary across the 6-12 section of the school. It will allow real time communication between staff and parents utilising current digital technologies.

In order for you and your child to access MyEDiary please provide your current e-mail address to ensure that you will receive notifications.

Please return the slip below as soon as possible with your current accessible e-mail address. Details regarding information sessions will be forwarded shortly.

Regards,
